

2009 LUNACY

Riding the wave of success from the Lunacy's first generation, Slingshot debuts the 09 Lunacy with Lenten custom graphics as a precursor to the highly anticipated **FREESTYLE COLLECTION**. Now the Lunacy is available in a 129, 132 and 135 cm which offers more options for the rider to make the Lunacy their own.

The Lunacy is the first ever "promodel" board appropriately named with reference to how insane Ruben Lenten rides. After experiencing the benefits of Slingshot's proprietary core technology FRT*, used in the Slingshot wakeboards, Ruben incorporated this feature into his kiteboard. Also the Lunacy is a super aggressive twin tip and maintains a wide shape, sharp rail and extreme tip power. Translation, it delivers unmatched drive and massive pop! Chief Board Designer John Doyle and Ruben Lenten have combined their unique talents and skill to create the ultimate kiteboard for hard core freestyle riding and competition.

Lunacy Specs:
