

## 2009 SX

Progression and evolution are key elements to building confidence and ultimate success in kiteboarding. Benefits from the unique outline and overall shape of the SX has made kiteboarding fun and effortless for over 6 years. The SX is now built with our proprietary FRT\* core construction adding just the right amount of responsiveness, edge and pop in a shape that is progressive yet forgiving.

### SX Specs:

Length:	Width:	Tail:
130cm	37.5cm	29.5cm
137cm	39.5cm	31cm
147cm	44cm	33.5cm

### Benefits:

The SX is the ideal board for the rider who wants to progress and build a solid foundation for their kiteboarding skills. Advantages such as even flex, energy and pop allow for effortless freeriding and fun.

### Features:

- FRT\*: Future Response Technology
- Step down side wall construction
- Twin tip shape
- Rounded tip angle
- Constant curve rocker
- Shallow concave
- Made in the windy Gorge, USA
- Slingshot legendary construction
- Lifetime Rider Hotline Membership

### Advantages:

- Even flex that rebounds into insane energy and pop. Also makes the core light weight and strong.
- Increased edging.
- For effortless switch riding.
- Loose "skate" feel in the turns
- Overall comfort and suspension
- Provides bite on the rail and water.
- Produced in our back yard.
- Bomber quality.
